MEDICAL EDUCATION CLINIC ESTABLISHED IN NOVI SAD -- Belgrade, Borba, 12 May 51

Novi Sad, 11 May -- In March 1951 a medical education clinic was established in Novi Sad, the first of its type in Yugoslavia. The clinic is concerned primarily with mentally defective, and secondarily with physically defective children, and prescribes either medical or educational treatment.

The clinic also instructs relatives and teachers in the proper approach to mentally and physically defective children, and has sent written instructions to all schools in methods of treating defective children. During the first 3 months, 125 children have passed through the clinic, many of whom have been helped considerably.
